

HARN PARTNER

Q&A
with...

SCORPIO

PRESIDENT/CEO DOMENIC SCORPIO

What does being a supporter of the Harn mean to Scorpio?

Scorpio is proud to be a part of the Harn Museum family. We have always looked at what we do as one-part science one-part art. We strive to provide in each building we construct the perfect marriage between form and function. A key component of our mission statement is “Beautify cities.” There is no question that design informs that beauty.

What do you want to accomplish through your giving to the Harn?

Giving to the Harn is our way of making sure that everyone continues to have access to the programs and exhibits. It is through access that inspiration and appreciation can develop. The world needs more of that.

Tell us about your business philosophy/mantra. What does your business gain by supporting the Harn?

Scorpio’s Vision Statement encompasses our philosophy best: No Brick out of Place. No Building without Purpose. No Community without Beauty. No City without Abundant Life.

Supporting the Harn and its programs is another avenue to ensure our Vision for this community.

How does the Harn compare to other museums?

The Harn is a world-class museum and can certainly be included with some of the top art museum in the county. It is impressive that a community of our size has such a treasure and it important to continue to support the Harn so it can grow and ensure success into the future.

What do you hope for the future of the Harn?

If history is any indicator, then the Harn Museum is only destined for more greatness. As long as the community and donors continue to step up and support the Harn then there is no telling just how big and how influential it could become in the art world. It is exciting to imagine and Scorpio is excited to be a part of that future.
